

BOYS & GIRLS CLUBS

SCHOOL YEAR SERVICES – RETURN TO SCHOOL PLAN

On September 29th the Wake County Board of Education approved a plan that will welcome younger children back to school for daily instruction with remaining students attending schools in rotations or remotely.

The plan will have K – 3rd grades return to the classroom on a rotating basis beginning October 26th before attending classes on a daily basis beginning November 16th. Students in 4th and 5th grades will return to school in three week rotations beginning November 16th through the end of the semester. Students in grades 6, 7 and 8 will return to school in three week rotations beginning November 9th through the end of the semester. High school students will continue to attend school remotely through the end of the semester. Students in secondary schools would return to school for any state exams that require in-person attendance.

Boys & Girls Clubs serving Wake County will continue to make our services available for children and teens **through the end of the first semester for Wake County's traditional calendar**. Most of our Clubhouses will continue to operate 7:30AM-6PM Monday through Friday with an emphasis on supporting Club Members on-line/remote learning each day, as well as providing a chance for children and teens to be active, have fun and get involved in other structured activities. A daily hot meal will be provided at our Clubs in Raleigh.

No transportation will be provided by the Boys & Girls Clubs during the first semester for those Club Members attending school in-person. The Clubs are available for these Members in the afternoons at no charge. We are sorry for any inconvenience this may cause for our families. We will be gathering information over the course of the first semester to see if transportation could be possible during the second semester if students do not return to school on a daily basis.

Our Clubs have many safety precautions in place and have been following the guidelines of local health leaders since reopening July 6th. Space will be limited in order to follow mandates for social distancing, safe gatherings and ratios of Club Members to staff. **Information on our safety and wellness guidelines along with other information and updates regarding Club operations during the first semester for Wake County Public School students can be found at www.wakebgc.org.**

In the coming days Club staff will be gathering information on your child(ren) based on the weeks they are assigned for in person instruction. Please share with your Club Director and/or Youth Development Professional as you are notified. We look forward to continuing to safely provide remote learning support for our Club Members in the coming weeks as the reopening plan for Wake County Schools begins.
